

Fieldwalking opportunity 18 September

Cllr Sam Collins discovered a scatter of Roman tile in a field near a Scheduled Ancient Monument during the lockdown of early 2021. Together with Keith Fitzpatrick-Matthews from the Museum Service, he is organising some fieldwalking to see what more can be found and how extensive the site may be. There is a story in [The Comet online](#).

If you want to be involved, we'll be meeting where Purwell Lane turns to meet Kingswood Drive.
