North Herts Museum Update: photographs of the Museum development on Flickr

As part of the redevelopment of Hitchin Town Hall, the old gymnasium and the Workmen's Hall to provide a new Museum and community hall, we are keeping a photographic record of the work. Demolition started in December and continues apace. Selected photographs are being posted on <a href="https://www.nhdc.nih.gov/nhbc/s-flikr-stream">NHDC's Flikr stream in a special set</a> to allow you to follow the work.

Demolition under way on what will become the entrance to the Museum and Town Hall
